**Khan Resources Reports Accident Resulting in a Drilling Contractor Fatality at the Dornod Uranium Project in Mongolia**

TORONTO, ONTARIO--(CCNMatthews - Nov. 30, 2006) - Khan Resources Inc. (TSX:KRI) is saddened to announce that earlier today (during the afternoon in Mongolia), an accident occurred when a drill was being loaded onto a flat-bed truck at the Dornod Uranium Project in Mongolia, resulting in the death of a drilling contractor's employee.

Authorities were notified immediately and the accident is now under investigation by the relevant Mongolian authorities. Khan will be assisting authorities in the investigation of this tragedy and offers its sincerest sympathies to the family of the deceased.

The drilling program had been completed just prior to the accident.

This press release may contain forward-looking statements, which are subject to certain risks, uncertainties and assumptions. A number of factors could cause actual results to differ materially from the results discussed in such statements, and there is no assurance that actual results will be consistent with them. Such forward-looking statements are made as at the date of this news release, and the company assumes no obligation to update or revise them, either publicly or otherwise, to reflect new events, information or circumstances, except as may be required under applicable securities law.

About KHAN:

Khan is a Canadian exploration and development company. Its current activities are focused on the Dornod area in north eastern Mongolia, the site of a former Russian open-pit uranium mine. Khan is listed on the Toronto exchange under the symbol KRI.
