Khan Court Decision to be Appealed by Nuclear Energy Agency

TORONTO, ONTARIO, August 9, 2010 – Khan Resources Inc. (TSX:KRI) (“Khan” or the “Company”) announced today that the Mongolian Nuclear Energy Agency ("NEA") has chosen to appeal the decision in favour of Khan's subsidiary, Central Asian Uranium Company LLC ("CAUC"), rendered July 19, 2010 by the Mongolian Capital City Administrative Court. The Court's ruling on July 19 was that the NEA's purported decision to invalidate CAUC's mining license 237A was itself illegal and invalid.

Grant Edey, President and CEO of Khan commented "We are very disappointed that the NEA has chosen to appeal a very clear and definitive ruling of the Court. We trust the Court will deal with the matter quickly and uphold the ruling in favour of CAUC".

Khan Resources Inc. (TSX:KRI) is a Canadian company engaged in the acquisition, exploration and development of uranium properties. Its current activities are focused on the Dornod area in northeastern Mongolia, the site of a former open-pit uranium mine. Khan holds interests in the Main Dornod Property and in the Additional Dornod Property. Khan's website is www.khanresources.com.

Forward-Looking Statements and Information

This press release may contain forward-looking statements and forward-looking information, which are subject to certain risks, uncertainties and assumptions. Forward-looking statements and information are characterized by words such as “will”, “plan”, “expect”, “project”, “intend”, “believe”, “anticipate”, “forecast”, “schedule”, “estimate” and similar expressions, or statements that certain events or conditions “may” or “will” occur. Forward-looking statements and information are not historical facts and are based upon a number of estimates and assumptions and are inherently subject to significant business, social, economic, political, regulatory, competitive and other risks and uncertainties, contingencies and other factors, including the impact of international, Mongolian and Canadian laws, trade agreements and regulatory requirements on Khan's business, properties, licenses, operations and capital structure, Khan's ability to re-instate or re-register the Dornod uranium project licenses, regulatory uncertainty and obtaining governmental and regulatory approvals, legislative, political, social, regulatory and economic developments or changes in jurisdictions in which Khan carries on business, the nature and outcome of pending and future litigation, arbitration and other legal proceedings, the speculative nature of exploration and development, risks involved in the exploration, development and mining business, changes in market conditions, changes or disruptions in the securities markets and market fluctuations in prices for Khan securities, the existence of third parties interested in purchasing some or all of the common shares or Khan's assets, the method of funding and availability of any potential alternative strategic transactions involving Khan or its assets, including those transactions that may produce strategic value to shareholders, the need to obtain, maintain and/or re-register licenses and permits and comply with national and international laws, regulations, treaties or other similar requirements, and uncertainty in the estimation of mineral reserves and resources. In addition, a number of other factors could cause actual results to differ materially from the results discussed in such statements and information, and there is no assurance that actual results will be consistent with them. For further details, reference is made to the risk factors discussed or referred to in Khan's annual and interim management's discussion and analyses and Annual Information Form on file with the Canadian securities regulatory authorities and available on SEDAR at www.sedar.com. Such forward-looking statements and information are made or given as at

the date of this news release, and Khan assumes no obligation to update or revise them, either publicly or otherwise, to reflect new events, information or circumstances, except as may be required under applicable securities law.
