# Notes to Financial Statements

## 1 Corporate information

Khan Resources Inc., along with its subsidiary companies (collectively the “Company”), was involved in acquiring, exploring and developing mineral properties, primarily in Mongolia.

The Company initiated an International Arbitration action in January 2011 against the Government of Mongolia and its state-owned uranium company, Monatom LLC for the Government of Mongolia's failure to reissue the Company's mining and exploration licenses for the Dornod project. On March 2, 2015 the International Arbitration Tribunal rendered an award to the Company as compensation for the Government of Mongolia's actions in relation to the cancellation of Khan's uranium licenses in 2009. See Note 15a, Contingencies.

The Company is a publicly listed company incorporated in Canada under the legislation of the Province of Ontario. The Company's shares are listed on the Canadian Securities Exchange.

The registered office of the Company is located at The Exchange Tower, P.O. Box 427, 130 King Street West, Suite 1800, Toronto, Ontario, Canada, M5X 1E3.

## 2 Basis of preparation

### a. Deconsolidation of Mongolian subsidiaries

The Company has no power to govern the financial and operating policies of Central Asian Uranium Company, LLC and Khan Resources LLC due to circumstances in Mongolia that are impeding the legal dissolution of these entities; accordingly the Company derecognized related assets, liabilities and non-controlling interests at December 31, 2014. The Company did not receive any consideration in the deconsolidation of these two subsidiaries.

The assets and liabilities over which the Company lost control are not significant to the Company's consolidated financial statements.

### b. Statement of compliance

These unaudited interim condensed consolidated financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting*. The unaudited interim condensed consolidated financial statements do not include all disclosures normally provided in annual consolidated financial statements and should be read in conjunction with the Company's 2014 annual consolidated financial statements which have been prepared in accordance with International Financial Reporting Standards (“IFRS”). The Board of Directors authorized these unaudited interim condensed consolidated financial statements for issue on August 20, 2015.

These unaudited interim condensed consolidated financial statements have been prepared on a going concern basis, which assumes that the future operations will allow for the realization of assets and discharge of liabilities in the normal course of business. Management has determined that it is probable but not certain that the significant International Arbitration award described in Notes 1 and 15a will be collected in full. In the event that the award is not collected, this material uncertainty may cast significant doubt as to the Company's ability to continue as a going concern given its financial position as at June 30, 2015.

### c. Use of estimates and judgments

The preparation of condensed interim consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed interim consolidated financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Company's 2014 annual consolidated financial statements.

### 3 Significant accounting policies

The accounting policies adopted are consistent with those of the previous financial year. There are no new IFRS standards, amendments and interpretations that are effective for the first time for this interim period that would be expected to have a material impact on the Company.

### 4 Cash, cash equivalents and restricted cash

As at June 30, 2015 and 2014, the Company did not have any cash equivalents.

Restricted cash consists of a guaranteed investment certificate pledged as security for a corporate credit card facility. This guaranteed investment certificate has a maturity date of less than one year.

### 5 Investments

Investments consist of available-for-sale financial assets of 1,055,291 common shares of Plateau Uranium Inc. ("Plateau") with a fair value on June 30, 2015 of \$464 (Sep. 30, 2014 - \$939). Plateau was previously Macusani Yellowcake Inc. ("Macusani"). On April 30, 2015 Macusani announced that Macusani has changed its name to Plateau Uranium Inc. Macusani also announced that all outstanding common shares have been consolidated on the basis of one new post-consolidated share for every 8 pre-consolidated shares. During the nine months ended June 30, 2015, the Company sold 750,000 shares (2014 – 135,125) of Plateau for gross proceeds of \$209 (2014 - \$114).

The Company measures financial assets at fair value at each reporting period using quoted market prices. Decreases in the fair value of the Plateau shares are recognized in income (loss) before tax as a consequence of this financial asset being assessed as impaired at September 30, 2012 with subsequent increases being recorded in other comprehensive income. (a) The financial assets account represents the revaluation of available-for-sale financial assets. Where a revalued financial asset is sold or impaired, the relevant portion of the account is transferred to income before tax.

## 9 Share-based compensation

On March 19, 2015, a total of 1,775,000 options with a contractual life of three years were granted to directors, officers, and employees at an exercise price of \$ 0.57 per share being an amount equal to the posted share price prevailing at the close of market on March 18, 2014. All of the options shall vest and be exercisable immediately. There is no cash settlement of the options. The fair value of the options granted is estimated at the date of grant using the Black-Scholes option pricing model, taking into account the terms and conditions upon which the options were granted. The fair value of the options granted during the six months ended March 31, 2015 was estimated on the date of grant using the following assumptions:

Dividend yield (%)	-
Expected volatility (%)	120.33
Risk free interest rate(%)	0.46
Forfeiture rate (%)	-
Expected life (years)	3.00
Weighted average share price (\$)	0.570

A share-based compensation expense of \$713 as a result of the options granted on March 19, 2015 has been recognized in the consolidated statement of comprehensive income. During the comparable period of the prior year, the Company recognized a share-based compensation expense of \$525 for 2,150,000 options granted on March 28, 2014.

The following table summarizes information about share options outstanding at June 30, 2015:

Grants listed by expiry date	Exercise price (\$)	Remaining life (years)	Fair value per option (\$)	Number outstanding	Number vested	Number unvested

## 11 Related party transactions

An officer of the Company is a partner in a firm that provides legal services to the Company. The Company paid an aggregate of \$20 for the three months ended June 30, 2015 (2014 - \$16) and \$38 for the nine months ended June 30, 2015 (2014 - \$32). At June 30, 2015, the balance outstanding was nil (2014 – nil).

## 12 Discontinued operations

The Mongolian subsidiaries were closed on September 30, 2013 as a result of the circumstances described in Note 1.

(a) The Government of Mongolia withholds income tax related to intercompany interest expense. The Company has not tax-benefited from pre-tax losses. More information about non-capital losses is set out below.

(b) Recognition of deferred tax asset originated in profit or loss

### Non-capital losses

At September 30, 2014, the Company had Canadian non-capital losses of approximately \$29,155 (2013 - \$27,826) available for deduction against future taxable income. If unutilized, non-capital losses will expire from 2015 to 2034 whereas capital losses can be carried forward indefinitely. Netherlands tax losses of approximately \$420 (2012 - \$347) are available for deduction against future taxable income and these losses, if unutilized, will expire from 2018 to 2023. None of the tax losses have been tax-benefited.

Due to the closure of the two Mongolian subsidiaries on September 30, 2013, tax losses of \$190 will not be utilized for deduction against future taxable income and will expire in 2015.

## 14 Earnings per share

Basic earnings per share (EPS) are calculated by dividing the net income (loss) for the period attributable to equity owners of Khan Resources Inc. by the weighted average number of common shares outstanding during the period.

Diluted EPS is calculated by adjusting the weighted average number of common shares outstanding for dilutive instruments. The Company's only dilutive instruments at June 30, 2015 were its share options. Any potential common shares whose effect is anti-dilutive have not been reflected in the calculation of Diluted EPS. The determination of the weighted average number of common shares outstanding for the calculation of Diluted EPS does not include the effect of outstanding share options since to do so would reduce the loss per share and would therefore be anti-dilutive.

## 15 Contingencies

- (a) On March 2, 2015, a contingent asset existed related to an award rendered by the international arbitration tribunal to Khan as compensation for the Government of Mongolia's actions in relation to the cancellation of Khan's uranium licenses in 2009. The award consisted of a Base Amount of \$80 million (US) plus interest at LIBOR +2% (compounded annually) from July 1, 2009 to the time of payment. In addition, the tribunal awarded costs of \$9.1 million in favour of Khan. At June 30, the award aggregated to approximately \$104 million. Interest was accruing at a rate of 2.546% or \$6.5 per day.

In Canadian dollars at the closing exchange rate on June 30, the value of the total award was \$130 million.

- (b) At June 30, 2015, a contingent liability amounting to \$4,045 (September 30, 2014- \$3,628) existed in respect of a completion fee arranged with legal counsel handling the international arbitration. This fee is based on the actual cost of the legal work completed and is conditional upon the recovery (in whole or significant part) by the Company of a settlement or award of the international arbitration case. As a present obligation does not exist due to the conditional nature of the fee, the amount is uncertain and cannot be measured reliably. Therefore management has recognized no provision in these consolidated financial statements as at the date of their approval.

## 16 Subsequent events

- (a) Subsequent to June 30, 2015, 845,000 share options were exercised resulting in proceeds to the Company of \$247. 800,000 of these share options related to the grant that expired August 16, 2015. That grant was fully exercised.
- (b) On August 20, 2015, two additional directors were appointed to the Board of Directors and the Board granted these directors a total of 400,000 share options. These options have a contractual life of three years and an exercise price of \$ 0.53 per share being an amount equal to the posted share price prevailing at the close of market on August 19, 2015. All of the options shall vest and be exercisable immediately. There is no cash settlement of the options.
